**KnK/NL 0207**

**February 2007**

## **Baby you can drive my Kart, I am gonna be a star!! Nikhil Kashyap.**

Nikhil Kashyap Team KnK Racing Minimax driver is today a child idol. We have witnessed Nikhil transform to a level of confidence and achievement. Determined application of self-improvement - rigorous exercising and reading. Last year Nikhil's achievements on and away from the karting circuits are commendable;

1. Bournvita Quiz contest- Confidence Champion 2006: Nikhil qualified for the Regional Finals and was the second top scorer in the Quiz.
2. Pogo Amazing Kid Awards 2006: Nikhil was among the top 5 nominated for the Award in the Sports category.
3. Nikhil was offered by Cadbury's to be the model cum racer for the advertisement of their product Bournvita. The advertisement is aired and being telecast on many channels across the country, in south and north Indian languages.

We were present at the Cadbury's short advertisement film shoot that was done at Goa.

Below right - Nikhil prepares to drive a kart fitted with a camera rig facing him.  
Below centre – Nikhil will follow a bike with a camera fitted to its rear to record action shots.

## **KnK Racing – Cadet driver – Jake Mayes**

Jake Mayes will race F6 in the new KnK Juvenile Cdt MSA homologated kart this year. In February, Jake at Ellough Park Raceway' in Beccles finished first in the Honda cadet class in only his second outing in the new KnK. Jake started 6<sup>th</sup> on the grid behind 5 Comer Cadet karts and drove a determined and brilliant race to finish second behind a Comer but first in the Honda Cadet class.

Jake recorded the first win for the new homologated chassis and we are confident that we will see lots more from Jake as the year progresses.

Jake was at the Conquest Technologies Ltd. KnK stall at the Autosport International Racing Car Show at NEC, Birmingham in January last month where he chatted with drivers and explained the merits of the KnK cadet chassis that he races.

To read more about Jake please check out his new website [www.jakemayesracing.co.uk](http://www.jakemayesracing.co.uk)

**KnK Off Road karts** - Last month we wrote about the Pathfinder and received an overwhelming amount of mail asking to know more about it through pictures. Your wish.....

## PATHFINDER

Furthering the ante with thrilling experiences in the dirt, the prototype of a new single seat competition kart rolled off the line, the Baja Sidewinder promises to be fast and exhilarating. Drive in through an automatic continuously variable drive; the power is there when you want it, all the time!! Awesome!

### **New modern engine for karting –**

We are pleased to mention that we are appointed as representatives for the Subaru engines for karting purposes in India. We'll soon have more on the new Evo karts and this beautiful EX21 overhead cam engine, which produces 7 hp of smooth power. For more information on the Subaru EX21 watch out for the March KnK Newsletter or email us at [enquiries@knkkarts.com](mailto:enquiries@knkkarts.com)

Until then, thank you for reading with me, we will talk some more soon!

*Micki*

**KnK karts**  
Straight Forward!!
