STRAIGHT FORWARD!!!

Seriously busy!

We have been up to our necks in work with developments on several fronts and this has caused the delay with this newsletter.

NEWS

Expect a bunch of new goodies from **KnK** next month. 40mm and 50mm hollow axles, rear and front hubs, disc brakes, carriers, wheel rims, front brakes and rear brakes, body work, steering wheels, tilting steering hubs, race apparel, tyres and more.

RACING WITH KnK - Australia

Monica's sister **Sabrina Saunders** drove her **KnK JL302** KT100S in a big field of 27 karts in the Sportsman Light class. Heat 1 saw her start in P17 and move to P10 before suffering a huge hit which put her off the track into a kart on the side of the track. In heat 2 because of a DNF she started right at the back in P27 by lap 4 she had moved up to P12. In heat 3 it was beginning to rain and she would be starting in

Monica Saunders & her **KnK Trakhawk** showing the boys the way around Ipswich in Rotax Light - 1st heat started off P19 and moved forward to P7. In the 2nd heat she started P7 and moved to P4. The 3rd heat it started to rain - Monica started at P4 and quickly moved into 1st place by lap two and then on lap 4 it really rained and the race was stopped.

P12. By lap 3 she had cut through to P3 where she finished the race tapping the back bar of the second place kart who in turn was tapping the back bar of the 1st place kart as she crossed the finish line -the three karts went across the finish line side by side-Sabrina missing second by a nosecone !!!!! Then the rain started in earnest and the remaining heats were cancelled.

Raymond Jenkinson (below) was enjoying a great race in his **KnK Juvenile** when he moved through the field from P9 to P4. A horrendous accident then caused him serious injuries to his wrist when the driver behind him climbed over him at the Lismore “Young Guns” event when Raymond was challenging for P3 in heat 1.

He has since raced again at Warwick International Raceway and finished third for the day.

James Pratsch (below) beat the Rotax Max and Leopard boys in his 100cc "Resa".

His **KnK Trakhawk** was working well on the MG Yellow tyres.

Until next time then, thank you for reading with me, we will talk some more soon!
